

## CLINICAL PATHOLOGY / LAB

When lab is medically indicated, testing may be provided for the services Scott & White Health Plan approved for your clinic. In some cases, depending on the contractual agreement, lab services that cannot be provided in your clinic may be forwarded to the local affiliated hospital for processing according to CLIA guidelines. Lab tests processed in the hospital for Scott & White Health Plan Members must be billed directly from the hospital to the Scott & White Health Plan on a UB Form. **Hospital lab tests for Scott & White Health Plan SeniorCare Members must be billed directly from the hospital to HCFA on a UB Form.** Tests that the clinic or hospital is unable to process must be routed through contracted network lab providers. A referral form or copy of requisition must be completed.

When a patient is hospitalized and requires lab testing, those lab tests, which the hospital processes, are approved for Health Plan coverage when deemed medically appropriate and necessary. **Hospital lab tests for Scott & White SeniorCare Members must be billed from the hospital to HCFA on a UB Form.** For those tests which the hospital is unable to process, those tests must be routed through contracted network lab providers.

### **Contracted Network Lab Providers:**

**\*AK Molecular Diagnostic Laboratory**

1000 W. Highway 6, Suite 230  
Waco, Texas 78712  
254-741-6363 (Headquarters)
