

SeniorCare Policy Holder Claims

Senior Care is an enhancement program to Medicare Coverage. Scott & White Health Plan (SWHP) has a contractual arrangement with CMS to administer this program. SWHP acts as the Medicare intermediary for some Part B services for Senior Care members only. Please refer to your contract for further details.

Part A Services – All claims billed on a UB04 for Part A services should be filed with Medicare Part A. Effective 5/1/2011, SWHP is accepting cross over claims from Medicare. If you bill secondary claims to SWHP for Medicare primary claims, we are now receiving daily electronic files from Medicare and will be processing provider payments from these electronic Medicare submissions.

Part B Services – Check your provider contract for specifics on Part B billing.

(Exception: CPT codes 90801 – 90899 for psychiatric services and 90918 – 90999 for dialysis should be filed directly with Medicare.)
