

Specialty Pharmacy Drug Program

January 1, 2019

The SWHP Specialty Pharmacy Program offers you the choice of two specialty care pharmacies to help manage and access your specialty drugs: the Baylor Scott & White Specialty Care Team pharmacy or BrioRx[®] specialty pharmacy.

If you are taking one of the specialty medications listed in this document and obtain it through a pharmacy, you must contact either Baylor Scott & White Specialty Care Team pharmacy or BrioRx[®] specialty pharmacy to fill your prescription.

To start using the **Baylor Scott & White Specialty Care Team service**, call **1-844-288-3179**, or stop by in person, located at 425 University Blvd. in Round Rock, TX.

To start using **BrioRx[®]**, please call **1-855-4BRIOVA (1-855-427-4682)** or visit **BrioRx.com/newpatient**.

Characteristics of specialty medications

Specialty medications are used to give care for rare and complex conditions. They are often drugs you take by mouth or inject. These medications require use of a preferred specialty pharmacy for the following reasons:

High-priced

- Can cost more than \$1,000/30 - day supply.

Complex

- Drug imitates compounds found in the body.
- Part of a specialty drug class.

High-touch

- Special shipping or handling such as refrigeration.
- Needs a doctor or pharmacist to measure how well it works for you.
- Special steps to follow as you take.
